SUMMARY PLAN INFORMATION FOR THE PLAN YEAR JANUARY 1 - DECEMBER 31, 2017

LOCALS 302 AND 612 OF THE INTERNATIONAL UNION OF OPERATING ENGINEERS- EMPLOYERS CONSTRUCTION INDUSTRY RETIREMENT PLAN

EIN: 91-6028571
Plan Number 001

This notice is intended to provide a summary of plan information to participating employers and employee representatives of the Locals 302 and 612 of the International Union of Operating Engineers-Employers Construction Industry Retirement Plan ("Plan"). This notice is required to be provided by Section 104(d) of the Employee Retirement Income Security Act ("ERISA"). It summarizes information for the January 1 through December 31, 2017 Plan Year.

Description of the Plan's Contribution Schedule and Benefit Formulas

Contributions to the Plan are made monthly by employers pursuant to the terms of the collective bargaining agreements and special agreements (for non-bargaining employees). The contribution rate varies by agreement.

Accrued benefits are based upon a percentage of contributions made or required on behalf of the individual participant during the Plan Year. The Future Service Benefit for Plan Years on or after January 1, 2004 (including the 2010 Plan Year) is 1.5% of contributions made during the Plan Year. Effective January 1, 2010, 12% of the negotiated employer contribution rate as of January 1, 2010 are not benefit accruing. The remaining 88% of the negotiated employer contribution rate as of January 1, 2010 will continue to receive benefit accrual credit. One hundred percent (100%) of contribution rate increases occurring after January 1, 2010 are benefit accruing. Effective January 1, 2013 12% of all employer contributions for covered hours of employment on and after January 1, 2013 are used solely for funding the Plan and participants accrue benefits on the remaining 88% of employer contributions. Effective January 1, 2017, 25% of all employer contributions for covered hours of employment on and after January 1, 2017 are used solely for funding the Plan and participants accrue benefits on the remaining 75% of employer contributions. During January 1, 2017 to March 31, 2017, the non-accruing contributions will not exceed \$1.00 of the hourly contribution rate plus 20% of the remaining balance.

Participants with at least five Years of Service or 7,500 Covered Hours of Employment, with at least one Covered Hour of Employment on or after January 1, 1997 without a termination of service, are generally eligible to retire beginning at Normal Retirement Age. Participants who do not qualify under this rule must earn 10 Years of Service or 15,000 Covered Hours of Employment to retire at Normal Retirement Age. The Plan's Normal Retirement Age increased from age 60 to age 62 for benefits accrued on and after January 1, 2013.

Participants with at least 10 Years of Service or 15,000 Covered Hours of Employment may also elect to retire at Early Retirement Age however the Accrued Benefit is reduced to take into account the Participant's age at retirement. The age-based reduction factor was increased effective January 1, 2010. This larger reduction for early retirement benefits applies to benefits earned after January 1, 2010. The Plan also provides Disability Retirement and pre-retirement death benefits for participants who qualify. The Disability Retirement benefits have been reduced as of January 1, 2010.

The Plan's earliest eligible retirement age increased from age 52 to age 55 for benefits accrued on and after January 1, 2013.

The Accrued Benefit for unmarried participants is paid as a life annuity with 60 monthly payments guaranteed. For married participants, the Accrued Benefit is paid as a 50% joint and survivor option. Participants, with the consent of their spouse (if applicable), may also elect an optional form of payment. For a full description of the benefit formulas, please refer to the Plan document.

The late retirement increase for benefits earned before Normal Retirement Age was eliminated for benefits accrued on and after January 1, 2013.
